BOA on the web:
<http://boamumbai.com>

This issue of the journal is the second consecutive one addressing one of the burning issues of Ophthalmology today: Endophthalmitis. The previous issue also had a series of articles on the same topic.

The importance of a thorough understanding of the issues related to endophthalmitis cannot be overstated in today's world. Of note in the articles in this issue is one by Dr Kirit Mody elaborating on how to deal with the press, in the eventuality of serial endophthalmitis.

We have omitted a CDROM with this issue, as some of the content was not yet ready, but the next issue of the journal which will be a bumper issue (the annual BOA conference issue) will have a CD on vitreoretinal surgery.

Also, I wish to reiterate that the BOA journal has been available on the web since the last 5 issues and the current issue at any time can be accessed from the BOA website.
