BOA on the web:
<http://boamumbai.com>

This issue of the journal is planned to be released on the occasion of the annual Conference of the BOA, and we have tried to make it as informative as possible.

With this issue the interactive multimedia CDROM is back and it contains some videos on vitreoretinal surgery by Drs. Salil Gadkari, Ashish Vaidya and Ajay Dudani, which I hope will be both interesting and informative.

Our journal has grown steadily in quality as well as subscription base and now has a normal print run of 750 copies. (This is a little more than the membership strength of the BOA.) This issue of course will have a larger print number as we will be distributing it free to all the delegates at the BOA conference.

In a short while we will also have the facility of members getting back issues of the content of the journal on CDROM. This however will come at a nominal charge of Rs. 100/- plus handling and postage charges, per yearly CDROM.

Also, I wish to reiterate that the BOA journal has been available on the web since the last 6 issues and the current issue at any time can be accessed from the BOA website.
